Dr. A. R. Gopal-Ayengar
Beekman Tower Hotel
Room 2005
3 Mitchell Place
New York 17, New York

Dear Gopal:

We were very happy to hear from you and it was good of you to take time to write when I know you must be very busy. The committee meetings must be bringing up some very interesting and important issues.

You mentioned that you might be going out to the west coast. I hope you will let us know your plans in time to see if we can make some arrangements by which you might visit us. We would be very happy to see you here. I am sorry that you will not be in the country long enough to attend our symposium on medical genetics in April, as we would very much have liked you to participate in this. If you can make a quick visit I am sure that we can take care of your travel expense at least from Chicago, en route to your California destination. We also hope that you will accept the hospitality of our home while you are here.

Would you be interested in giving us a seminar while you are in Madison? If so, what would you most like to talk about among your most varied interests?

I will ask Jim Crow to take the Bombay material off your hands. You really went to much too much trouble in bringing this with you.

Hoping we may have a chance to visit with you again,

Yours sincerely,

Joshua Lederberg
Professor of Medical Genetics
